## CAR STRIKERS RIOT

**Philadelphia Terrorized by Angry Mob of Union Sympathizers**

**STRAY BULLETS INJURE MANY**

**Boys Set Fire to Cars—Passengers Are Stoned in Many Localities —3,000 Deputies Sworn In.**

Cars wrecked, 297; car windows broken, 2,608; arrests made, 40; women shot, 2; extra police ordered, 3,000; total employed by company, 7,000; strikers' estimate of men out, 6,200; company's estimate of men loyal, 3,500; strike-breakers imported, 175.

Philadelphia, Feb. 22.—Rioting in every section of the city followed the attempt of the Philadelphia Rapid Transit company to operate its lines here today.

Passengers and crews were driven from cars by infuriated mobs of strike sympathizers and in nearly a score of instances the abandoned cars were burned or otherwise destroyed.

At nightfall every car was withdrawn from service. Stern measures were adopted by the police to quell the disorders. Five persons were arrested, charged with inciting to riot. Two women were taken to hospitals.

Mayor Reuburn tonight ordered Director of Police Tully to swear in 3,000 additional police and to issue a proclamation enforcing the riot act.

The executive committee of the Central Labor union this afternoon pledged both moral and financial support to the strikers. It also decided to call a sympathetic strike of every union man in the city in case the authorities put into effect their threat to operate the cars with policemen and firemen.

In the morning cars were run on every line with little difficulty except in the mill district of Kensington, where cars were stoned by mobs. At 11 o'clock transit company officials announced that cars were running on their regular schedule. Shortly afterward riots were reported from scores of widely separated localities.

In the Southern section a mob of boys drove a conductor and motorman from their posts, and after the four women passengers had left the car, set it on fire.

The car following was stopped also and was being set on fire when a detachment of police and a chemical engine reached the scene. In this same section Mary Devlin, aged 16 years, was shot in the leg when the police fired their revolvers in an effort to check the mob.

In the usually quiet residence section of West Philadelphia, mobs for a time baffled the police. Iron bars and stones were piled on the tracks and several cars were wrecked. Mounted police were powerless to disperse the mobs, and a fire hose was brought into play.

Contradictory claims are made by the opposing forces as to the number of men on strike. Leaders of the Amalgamated Association of Street and Electric Railway employees say that 6,200 of the 7,000 employees of the transit company have left their cars. Officials of the company say that 3,500 of their employees are loyal and that regular service will be resumed at daybreak tomorrow.

The importation of 175 strikebreakers from New York led to an attack on the barns and main offices of the company this afternoon. Windows were broken by the mob, which was finally dispersed, after 35 arrests had been made.

Union leaders say they will force the company to arbitrate. They charge that the company for months, by a series of petty persecutions, has been endeavoring to force the union to strike, and finally, by discharging a large number of union men, practically declared a lockout.

**Asiatic Employers Taboo.**  
San Francisco, Feb. 22.—If the various unions affiliated with the San Francisco Labor council obey the resolution adopted last night by that organization none of their members will be permitted to work in a house where Asiatics are employed. The resolution followed the voting down of a recommendation that no more saloons where Asiatics are employed be unionized, and it was adopted on the plea that it was not fair to single out the saloons for boycott when other business houses employ them.

**Castaway Chief of Camp.**  
Juneau, Alaska, Feb. 22.—Captain W. P. H. Porter and a few members of the crew of the wrecked steamer Yucatan are standing by the vessel, which lies more than half out of water. M. Walsh, who was shipwrecked in the Farallon on Cook Inlet last month, and who was obliged to spend four weeks in camp after that steamship went down, was a passenger on the Yucatan and made good use of his former experience as a castaway. It is said he did more than anyone else to make the Goose Island camp comfortable.

**Aviation School Planned.**  
Los Angeles, Feb. 22.—Plans for the establishment of a "school for aerial research" were presented to the city authorities and the various civic bodies today when members of the Aero club of California asked the mayor and the heads of the various associations to name members of a commission to direct such an institution. Experimenters and inventors in all branches of aviation and meteorology will be aided by the proposed plan.

**Sumpter Survivor Dies.**  
Erie, Pa., Feb. 22.—James Gibbons, the last of the little garrison that surrendered with Major Robert Anderson in 1861 when Fort Sumpter was fired upon, died tonight. Gibbons was credited with sighting the first gun fired by the Union forces.

## TROUBLES OF JURYMAN.

**Came Excuse for Taking Him Into Custody.**

The locking up of juries—actually imprisoning them—may be necessary, but any agreement reached in that way appears to correspond pretty closely in terms to what the law books call an agreement extorted "under duress of imprisonment," which is fraudulent and invalid. The authority for it rests on the very old precedent of court practice, and no doubt judges would find the most ample justification in law if the right were questioned, especially as there is nobody to decide on their own powers but the judges themselves. It is an indignity for a free citizen, acting as a part of a court of justice, to have his liberty taken away by a show of force, for he is taken into custody, led into a room, and locked in forcibly by court officers, and he might well ask himself whether he is capable of rendering a strictly impartial verdict under restraint. Perhaps that is one way of convincing the prisoner at the bar that he is being "tried by his peers." In a recent murder trial in New York City, notorious over the whole civilized world, each juror was placed under arrest as he stepped into the jury box, even before the case was opened, and he was kept a close prisoner—unless fortunate enough to be rejected as a juror—throughout the wearisome weeks of that trial.

The excuse offered by this indignity—for it certainly is that, disguise it as you will—was that it was necessary to prevent some jurymen being bribed; but it does not seem unreasonable for an honest man to ask why he should be suspected of willingness to be corrupted any more readily than the judge or the district attorney.

Judges and district attorneys have been known to be bribed, or bribers, before now; perhaps on the record quite often as jurymen. Why not lock up the judge and district attorney along with the jury to prevent the possibility, or the suspicion, of their being "reached"?—Joseph Horner Coates, in Scribner's.

## BEES AS FARMERS' AIDS.

**They Help to Fertilize Blossoms, Millions Every Day.**

Beekeeping is a valuable aid in the cultivation of fruit and seed crops. Insects which feed on nectar play an important part in the fertilization of flowers. Fertilization is effected in other ways, but the agency of insects is the more certain and efficacious, and no other insect is comparable with the honey bee in this respect.

A strong hive contains 10,000 bees in February, 15,000 in March, 40,000 in April, and from 60,000 to 80,000 in May. It has been discovered by skillful observers that the average load of nectar carried to the hive by a bee is about 3-10 of a grain, so that the collection of one pound of nectar requires nearly 23,000 foraging excursions.

By means of hives set on balances it has been found that the daily increase of weight in May averages 3.3 pounds. Occasionally, more than 11 pounds is gained in one day, and when the amount consumed by the bees and the loss of weight by evaporation are considered, it appears probable that the average daily quantity of nectar collected is not less than 11 pounds, which would load 250,000 bees.

As a bee visits 10 flowers on the average in collecting a single load, some 2,500,000 flowers are visited in one day by the bees of a single hive. An additional large number of visits is required for the collection of pollen. These figures explain why many trees and plants bear small crops in the absence of bees.

The bee is charged with various imaginary crimes. Its sting is formidable, but chiefly to the imprudent. It is accused of ravaging fruit, but its tongue is formed exclusively for the extraction of sweet juices, and its mandibles are unable to pierce the skin of a fruit.—Cominos.

**The Wonderful Camel.**  
When the nature of the work performed by the camel is considered it is perhaps its very somnolent organization which best fits it for that work and which gives color to the accusations of laziness and stupidity made against it. It can live on a diet as appetizing as "a green umbrella," to use Sir Samuel Baker's words. Barren, leafless twigs, dried shrubs and the tough, paper-like substances of the dome palm form the chief courses in the menu prepared by nature for this denizen of the desert. The marvelous arrangement for the retaining of a supply of water sufficient to last for many days makes the camel's powers of endurance phenomenal. The ordinary freight camel is expected to carry a load of from 500 to 1,000 pounds across the desert at the rate of twenty-five miles a day and to keep it up for three days without a fresh supply of water. Some will cover fifty miles a day for five days without water, and the swifter species will carry their riders 100 miles a day.—London Spare Moments.

Then he stopped.

"Sounds a good deal like 'Off agin, on agin, gone agin, Finnegan!'" he said, knitting his brows.

But he went ahead with it, and the finale made a decided hit.—Chicago Tribune.

**Didn't Exactly Mean It.**  
The girl—Isn't this thing tiresome? The young man—It's an awful bore. But there is no use, Miss Pinkie, of your trying to conceal a yawn with that fairy little hand of yours; it can't half cover—er—I mean—that is—Chicago Tribune.

**Pleasant, Refreshing, Beneficial.**  
Syrup of Figs and Elixir of Senna appeals to the cultured and the well-informed and the healthy because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In its production a pleasant and refreshing syrup of the figs of California is united with the laxative and carminative properties of certain plants known to act most beneficially, on the human system, when its gentle cleansing is desired. To get its beneficial effects, always buy the genuine, for sale by all reputable druggists; one size only, price fifty cents a bottle. The name of the company—California Fig Syrup Co.—is always plainly printed upon the front of every package of the genuine.

## Does Not Color Hair

Ayer's Hair Vigor, as now made from our new improved formula, does not stain or color the hair even to the slightest degree. Gray hair, white hair, blonde hair is not made a shade darker. But it certainly does stop falling hair. No question about that.

Indeed, we believe it will stop every case of falling hair unless there is some very unusual complication, something greatly affecting the general health. Then you should consult your physician. Also ask him about the new Ayer's Hair Vigor.

—Made by the J. C. Ayer Co., Lowell, Mass.

**Her Bright Idea.**  
The daughter of a Providence clergyman was reading in her room last fall an account of a religious ceremony in a western diocese. "The solemn eucharist was sung by Bishop Weller, with Bishop Gratton pontificating from the throne."  
"What does pontificating mean?" she asked her father.  
"Have you studied Latin and don't know the meaning of a very simple word?" was the reply.

**The Wisdom of Silence.**  
The late Judge Silas Bryan, the father of William J. Bryan, once had several hams stolen from his smoke-house. He missed them at once, but said nothing about it to any one. A few days later a neighbor came to him. "Say, Judge," he said, "I heard you had some hams stole 'other night'?"  
"Yes," replied the Judge, very confidentially, "but don't tell any one. You and I are the only ones who know it."—Success Magazine.
